

The **Perfumery Division** is currently looking for a

Perfumery Sensory Scientist

for our Global Sensory team in our facility in London, UK. Working with our Global Sensory Director, Senior Sensory Manager and others in the Sensory Team, you will be responsible for providing scientific expertise and deliver high quality sensory services within the Perfumery Division at Firmenich.

Job Responsibility

- To **manage and deliver sensory projects** by:
 - Recommending and applying appropriate methodologies to meet project objectives,
 - Analysing, interpreting, reporting and presenting the results to ensure key insights are communicated in the business,
- To **manage efficiently the external and internal panels** by:
 - initiating appropriate training programs,
 - monitoring panel performance,
 - providing performance feedback to panellists.
- To act as **primary point of contact** with test requestors and develop/maintain contacts with the different functions.
- Where appropriate to **liaise with external clients** to maximise effectiveness of sensory work to help win business.
- To work closely with the London Sensory Team and coaching of the Sensory Assistants to **ensure good coordination of projects** so that all sensory duties and responsibilities are completed in a professional and timely manner.
- To be proactive in working within the Global Sensory Team to **support development of new methodologies and protocols or sensory proactive programs** according to business needs.
- To maintain **awareness of new developments in sensory research** and their potential application to fragrance evaluation, modifying practices as appropriate

Profile

- A background in Sensory Science and a minimum of a Bachelor's degree in an appropriate field with a Sensory/ Consumer Science focus.
- 3-5 years experience in a sensory test and panel management role.
- Previous experience in the fragrance industry is an advantage.
- Strong client facing skills and client management experience.
- Excellent planning and organisational skills.
- Excellent presentation skills.
- Successful track record of people management in a team environment is an advantage.
- Ability to exercise tact and diplomacy.
- Expertise in a broad range of sensory techniques.
- Knowledge of FIZZ software.
- Ability to follow through sensory initiatives.
- Excellent team working skills.
- Self-starter, with strong sense of ownership, assertive and passionate for high level of client satisfaction.
